

SX522

Conventional Corn Hybrid

- Very high yield potential
- Strong stalks and roots with excellent stay green
- Excellent grain quality and test weight
- Works well for northern silage markets

Maturity 101 Days

Variety Characteristics*	
Plant Height	Medium Tall
Ear Height	Medium
Row Width	20" - 30"
Stalk Lodging	3
Root Lodging	3
Stay Green	2
Test Weight	2
Cob Color	Pink

Disease Ratings*	
GLS	4
NCLB	4
Goss's Wilt	2
Eye Spot	N/A
SCLB	4

*1 - 9 rating with 1 being Excellent

Recommendations	
Plant Population	28-34,000
