

SmartStax® RIB Complete® Corn	VT Double Pro® RIB Complete® Corn	Roundup Ready® Corn 2	Conventional			Silage Proven
-------------------------------	-----------------------------------	-----------------------	--------------	--	--	---------------

PRODUCT INFORMATION

LG5470 is a key product for this maturity with dominant performance over several seasons. Very strong agronomics and disease tolerance including Goss's Wilt. Excellent choice for both grain and silage

- A key product for this maturity with proven dominant performance, solid standability and good disease ratings.
- Girthy ears; open, loose husks that aid drydown in the fall.
- Great adaptability in no-till with excellent emergence and good early vigor.
- Handles all soils well, has good stress tolerance, recommended for continuous corn, and is silage proven.

MANAGEMENT TIPS

Handles all soils well, has good stress tolerance, and is recommended for continuous corn. Adapts well to no-till. An excellent choice for planting in the High Plains dryland environments.

9 = Excellent 1 = Poor N/A = Not Available

GDU's are estimates based on observations and are to provide guidelines for area adaptation. Scores and characteristics are assigned by LG Seeds based on comparisons with similar maturity LG and competitive products through internal field testing. Preferred Placement Zones represent the best areas of adaptation for a product based on in-field observations, genetic background, and trial data. Products may fit within only a portion of a zone, and products may perform well in other areas not identified. Contact your sales team for details.
