

SmartStax® RIB Complete® Corn

VT Double Pro® RIB Complete® Corn

Silage Proven

## PRODUCT INFORMATION

LG5548 performs well in the central and eastern Corn Belt, and on irrigated soils in the west. Very showy, with eye catching looks.

- Very attractive plant type with very high yield potential from large girthy ears of high test weight grain.
- Healthy plants, great fall appearance and staygreen, good stalks and excellent root strength.
- Very good plant health with excellent scores against NCLB and SCLB, above average tolerance against Goss's Wilt.
- Consistent yields in both high and low yield environments, very drought tolerant and dual purpose grain or silage.

Ear Type .....										SF
Flowering for Maturity .....										MID

## MANAGEMENT TIPS

Responds well in a high management situation and handles higher populations. Best adapted in the central and eastern Corn Belt, and on irrigated soils in the west. Consistent yields in both high and lower yield environments. Fungicides are recommended when planted in continuous corn.

## MANAGEMENT PRACTICES

	1	2	3	4	5	6	7	8	9	
Low Populations	9	9	9	9	9	9	9	9	9	
Medium Populations	9	9	9	9	9	9	9	9	9	
High Populations	9	9	9	9	9	9	9	9	9	
Marginal Soil	9	9	9	9	9	9	9	9	9	
Productive Soil	9	9	9	9	9	9	9	9	9	
Continuous Corn	9	9	9	9	9	9	9	9	9

GDUs are estimates based on observations and are to provide guidelines for area adaptation. Scores and characteristics are assigned by LG Seeds based on comparisons with similar maturity LG and competitive products through internal field testing. Preferred Placement Zones represent the best areas of adaptation for a product based on in-field observations, genetic background, and trial data. Products may fit within only a portion of a zone, and products may perform well in other areas not identified. Contact your sales team for details.
